1860 GENERAL \$29⁹⁸

T6411

List value of components \$43.02

Shades of the old west when many a passenger had to provide rail transportation for his horse as well as himself . . . and it was smart to be sure of extra water for the loco on long desert hauls. This has dictated the make-up of the 1860 General train set. So . . . in addition to the famous wood burning 1860 4-4-0 General Locomotive and Tender "Western and Atlantic", the set includes an 1860 water car, 1860 horse car, 1860 combine car and two 1860 coaches. Track for 45" x 36" oval consists of 11 sections 18" radius curved track, 1 section 18" R curved terminal, 1 straight 9" track section and 1 straight re-railer section.

THE COLUMBIAN \$34⁹⁸

THE ROYAL BLUE \$44⁹⁸

T6414

List value of components \$57.22

Dress the famous 4-6-2 lighted Pacific Locomotive and Tender in royal blue color and string behind it four dual-lighted chrome streamliners . . . the combine . . . two coaches and an observation car and you have a train set that would win a beauty contest in any competition. And it performs every bit as well. Set complete with track for 45" x 36" oval includes 11 sections 18" radius curved track, 1 section 18" R curved terminal, 1 straight 9" track section and 1 straight re-railer section.

EARLY BIRD-EAST \$39⁹⁸

T6413A—Illustrated

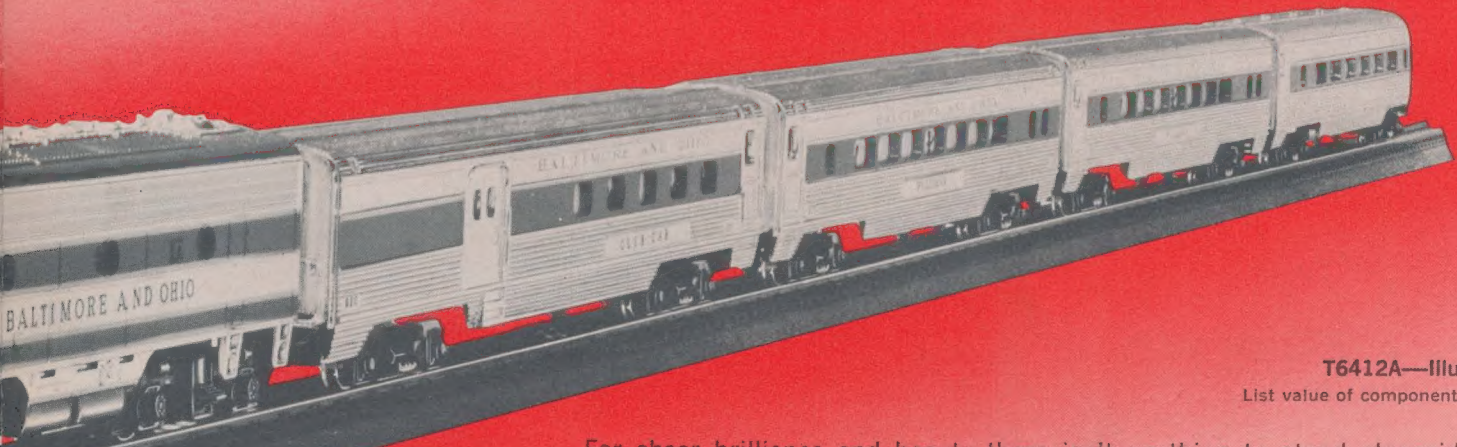

List value of components \$51.89

For an example of railroading at the peak of its influence on American industrial growth there's no finer example than this powerful 4-6-2 lighted Pacific Locomotive and Tender . . . at the head of a gondola car w/culvert pipe load, operating covered hopper car, skid-flat car w/pipe load, refrigerator car, chemical tank car, stock car and 8-wheel caboose. Nine thrilling units in all! And track! 11 sections 18" radius curved track, 1 section 18" R curved terminal, 1 straight 9" track section and straight re-railer section. Makes 45" x 36" oval.

List value of components \$57.71

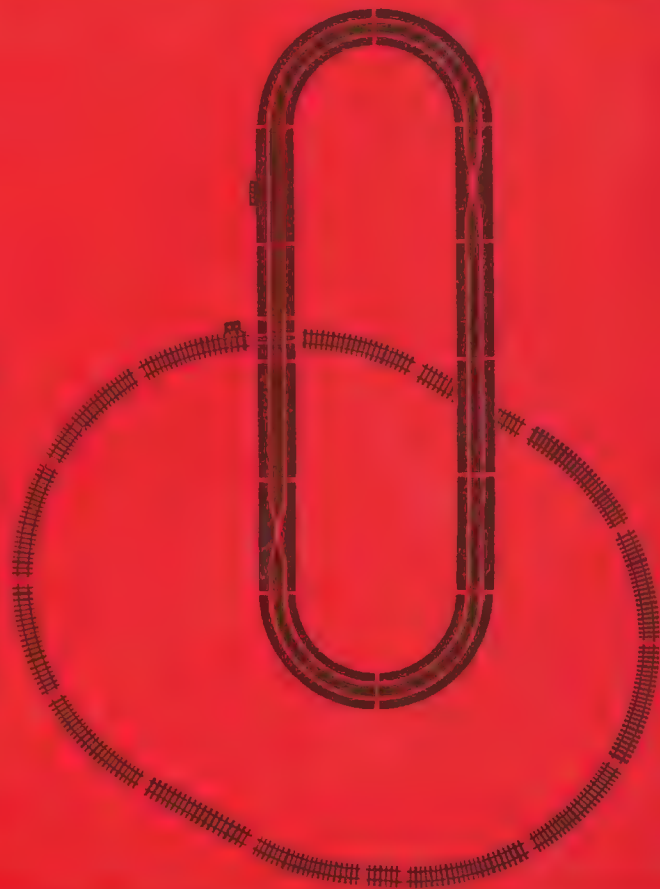

Here is the perfect variety of action to challenge your skills and start you on to a hobby of lifetime enjoyment. The model railroad and Speedway sections operate independently but because of the road and rail crossing are interacting as well. Both sections lend themselves readily to unlimited extension as your interest grows.

The "rail side" of the set includes a lighted F9 "A" Diesel loco "Santa Fe", refrigerator car, gondola car w/culvert pipe load and 4-wheel caboose. Track consists of 11 sections 18" radius curved track, 1 section 18" R curved terminal track, 1 straight 9" track, 1 straight 9" re-railer, 1 straight 3" track section and 1 3" square 90° road and rail crossing section.

The Speedway "side" of the set features the popular candy colored Jaguar XK-E and the Corvette Sting Ray with 4 sections 9" straight Tyco-lok track, 1 section 9" straight Tyco-lok terminal, 2 lane-changer 9" sections, 1 section 6" straight track, 4 sections 9" radius curved track, 1 set of piers (6), 1 pair of pier footings, 1 pair 2 1/4" piers, 1 set guard rails w/posts (6), 2 Tyco throttles, 1 No. 603 Road & Rail power pak combination.

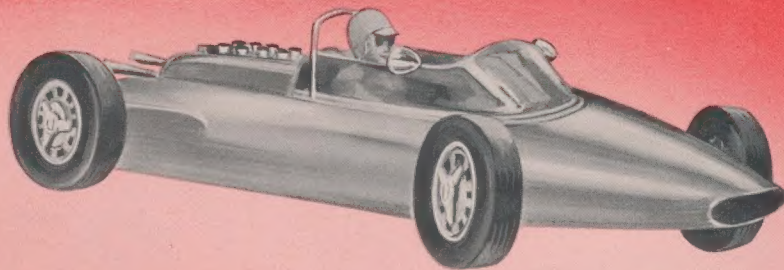

Combined track makes complete layout 67" x 48".

SPEEDWAY TRACK

(Patent Pending)

Your pleasure with TYCO-lok track will begin with the first two pieces you simply "click" together. In this one simple operation you get precision alignment of beautifully engineered slots for smooth operation. And the alignment is permanent. It won't separate in hot competition. With the same simple operation you get perfect electrical contact . . . without locks, clips, connectors or other nail-breaking, temper-shortening gadgets. TYCO-lok road surface gives maximum traction. Each section is specifically designed to permit 5° rise or drop so that absolute smoothness is provided in over and under track layouts. TYCO-lok Speedway Track may be used with all leading makes of HO scale autos. Make it **your** choice now! Available in all most wanted track sections and more on the way.

FREIGHT HANDLING DEPOT with Operating Tractor

Designed for use with any HO layout, this beautiful action accessory is battery operated and works, of course, independently of train power. It is **not** a kit. Installs in minutes. Special, all-metal spacing plate positions track and locks depot platform and unloading ramp into proper car clearance position. Both the tractor and tractor blade move in sequence to perform unloading operation. Specially designed control switch provides momentary push-button operation . . . or with a simple twist of the button may be set for continuous action. May also be wired for remote control. Authentic. Colorful. Fun and action packed. Set includes skid-flat car w/pipe load.
